IMPORTANT PART !! – REFERRAL MECHANISM

AS I mentioned above, there are a very little different among them

- ▲ For those invest in Bot Trade, the commission will be reckoned by **WIN ORDERS**
- ▲ For those who choose to join a Farming, Staking platform or play Fishing Game, the earning will be calculated by **DAILY TOTAL PROFIT.**

● REFERRAL MECHANISM GUIDELINE

For Bot Trade feature:

- ▲ Bot Rental Cost: \$30/ lifetime, and Athos Meta will be divided into 3 parts: First \$10 will be used to buy \$ATM to burn for inflation reducing. The next \$10 will be paid for F1, \$10 last is paid for F2 (\$5) and F3 (\$5).
- ▲ Bot Trade profits/ commission are worked out by win orders with ratio 7/3.

IMPORTANT PART !! – REFERRAL MECHANISM

For example: The winning order is \$1000.

70% of \$1000 is \$700 will be returned to investor wallet

30% of \$1000 is \$300 is used to pay for 10 levels of brokers system (from F1 to F10)

Be noted that we will use this number \$300 for instance throughout the presentation for users' understanding.

● IN THE MORE CLEARER WAY:

- ▲ Broker Free Bot - Sharer Badge (those who don't want to spend \$30 for Bot renting or investing in Bot Trade): Brokers can invite people to invest in the Bot Trade to get commision. With 1 person investing in a Bot, brokers earn \$10 and 30% of F1 profit.
 - ➡ So the profit that broker earn: $\$10 + 30\% \text{ of } \$300 = \$100$
- ▲ Broker Bot - Apprentice Badge (those who spend \$30 for the Bot and invest in Bot Trade with a minimum amount is \$100). Brokers get 50%F1 to F3
 - ➡ Total broker profit: $50\%F1 + 50\% F2 + 50\% F3 = \$150 + \$75 + \$37.5 = \$262.5$
- ▲ Broker Bot and having 10F1 in the system along with each F1 investing \$500 in Bot trade, and there are 2 branches that meet \$30.000 turnover condition in total. Broker go to Level 1 - Maker Badge and get 50% F1 to F5
 - ➡ Total broker profit: $50\%(F1 \text{ to } F5) = \$150 + \$75 + \$37.5 + \$18.75 + \$9.375 = \$290.6$
- ▲ Broker Bot and having 2 people go to Level 1, broker now is Level 2 with Master Badge correspond and get 50% of 8 levels profit
 - ➡ Total broker profit: 50% (from F1 to F8) is \$297.6
- ▲ Broker Bot and having 2 people in the system go to Level 2, brokers now go to Level 3 and reach the most valuable badge - Entrepreneur and get maximum 50% of 10 levels profit.
 - ➡ Total profit: 50% (from F1 to F10) is \$299,36

Users just keep applying this calculation for Farming, Staking platform and Fishing Game, for these 3 features, profit will be worked out by **daily total profit instead of win orders**, you will get the same numbers, same profit.
